Historical Association List of Speakers

The Historical Association was founded in 1906 and our first branch opened only months later. Since then, a service the national organisation has offered to branches is a central list of speakers willing to talk to local branches.

The List of Speakers consists of historians, who are willing to speak at branch meetings – and sometimes at events organised jointly by branches with other local historical societies – on an 'expenses only' basis. This service is greatly valued and enables, often impoverished, branches to offer a range of subjects to anyone who wishes to attend these lectures and increase their knowledge of history.

If you would be willing to join our list, I should be most grateful if you could complete and return the enclosed form to Anne-Marie Stephenson in the envelope provided.

If you have any queries, please do not hesitate to contact Anne-Marie on her direct line 020 78205982 or email: anne-marie.stephenson@history.org.uk

The details, which you include below, will be included in an updated List of Speakers sent to Branch officers, who will then make direct contact with you if they would like you to speak at one of their meetings. If you do not want to include any particular contact details (such as, for example, your home address) please leave that section blank. Please be assured that we will not pass your details on to anyone but Branch Officers of the Historical Association, but see the last section below. Guidance notes on terms and conditions are attached.
